

List of amended claims

1. (currently amended) A baby seat adapted to be worn at a midriff position of a person carrying said baby, said baby seat including a first flexible container having means for attaching said first flexible container to a belt of said person, said first flexible container receiving and holding a second rigid container, said second rigid container having an open interior, said open interior is covered by a seating plate, said seating plate is a seat for a baby to be sitting thereon, whereby the weight of the baby is carried by said second rigid container and thereby by said person at said midriff location, and wherein said seating plate is stored in a pocket on said first flexible container when not in use.

2. (canceled) [The baby seat of claim 1, wherein said seating plate is stored in a pocket on said container when not in use].

3. (currently amended) The baby seat of claim 1, wherein said seating plate consists of three parts, a first part being a plate which is received in a vertical curved receptacle in a rear of said rigid container, a second part forming a seat for a baby to sit on and third is an upstanding plate limiting the extent of movement of the baby sitting on said seat.

4. (original) The baby seat of claim 3, wherein all three parts are foldable relative to each other to form a single flat unit.

5. (currently amended) The baby seat of claim 1 including means for closing a top of said first flexible container.

6. (original) The bay seat of claim 2 including means for closing said pocket.

7. (currently amended) The baby seat of claim 3 including means for limiting the rotational movement of said parts relative to each other to a certain extent.
